2020 WELCOME LETTER

Welcome to ESP Ultrasound! We are the largest LIVE registry review program in the world. Established in 1992, ESP continues to offer unique, personal, and interactive classrooms in numerous cities across the US.

We have recruited and retained the top educators in the field. Our educators love what they do and have mastered the art and science of ultrasound. Coupling their passion for ultrasound with their love for teaching, they will ensure you learn, retain, and excel in registry review preparation.

We strongly value our students' professional goals and have tailored our courses to meet their needs. We love sharing our knowledge and have all the tools you need to pass your exam! We also offer up to 24 CMEs to assist you in maintaining your credential(s) and/or for those interested in returning for a refresher.

I invite you to explore our website and learn more about our seminars. While there, browse the many new products we offer to assist you in passing your exam!

We look forward to helping you achieve your goals in 2020!

Warmly,

Jean M. White-Melendez, RVT, RPhS, FSVU
Program Director

Challenging CCI's Non-Invasive Echo or Non-Invasive Vascular Exam?

CCI combines both clinical material and physics material in each of these exams. Therefore, ESP's Physics & Specialty Weekends are ideal preparation for sonographers seeking CCI's RCS or RVS credentials. Enroll in both the morning Physics and an afternoon Specialty class for optimal non-invasive echo or vascular exam coverage.

Ultrasound Physics - SPI, Fetal Echocardiography, Musculoskeletal, Pediatric Echocardiography, and Pediatric Sonography classes are taught in the mornings.

POCUS - POINT of CARE ULTRASOUND NOW OFFERED IN ATLANTA PG. 23

PVI NOW OFFERED IN ORLANDO & LA OCTOBER - SAT & SUN ONLY PG. 24

OVERVIEW

WHO SHOULD ATTEND

SONOGRAPHERS: ESP's programs serve sonographers, echocardiographers, technologists, and mammographers preparing for ultrasound boards exams. Our seminars provide continuing education credits for exam prerequisites and currently credentialed professionals. They are also directed towards those sonographers wishing to enhance their understanding of the theory and practice of diagnostic ultrasound.

PHYSICIANS: practicing radiology, vascular surgery, cardiology, phlebology, emergency medicine, cardiac anesthesiology, and Ob/Gyn will benefit from our programs. Physicians earn *AMA PRA Category 1 Credit(s)*[™] while preparing for board exams that are administered by the ARDMS and National Board of Echocardiography.

ESP's Musculoskeletal Program serves sonographers, orthopedists, chiropractic medicine, sports medicine, physical medicine & rehabilitation, rheumatology, athletic training, emergency medicine, podiatry and more.

ESP's seminars are the nation's largest and most successful registry reviews. We continue to help you fulfill your registry, accreditation and educational needs. All participants may earn *AMA PRA Category 1 Credit(s)*[™] while attending our seminars.

OBJECTIVES

This multi-track program is designed to improve performance and interpretation of diagnostic ultrasound and Doppler exams. Upon completion of this program, the participants will be able to:

- Use ultrasound physical principles to optimize exam quality
- Identify normal anatomy and pathology from ultrasound examinations
- Understand the current diagnostic roles of the various ultrasound and Doppler modalities
- Prepare for ultrasound credentials and laboratory accreditation

“

Just wanted to let you all know that I took your Vascular Seminar in Vegas and took my Vascular exam August 2019 and PASSED!!!! I was so overwhelmed and Thankful that I went to your seminar. Thanks again!!!!

Kimberly Touchin-Martin, RDMS, RVT

PVI - PHYSICIAN'S IN VASCULAR
INTERPRETATION (Sat & Sun-See Pg 24)
ULTRASOUND PHYSICS - SPI
VASCULAR TECHNOLOGY

PASSIONATE AND PREPARED - that's how students describe ESP Ultrasound's experienced faculty. By limiting the content of our classes to the 'right stuff,' you'll be well on the way towards earning professional credentials. You will be given a clear and direct road map that keeps you on the right track.

We appreciate the many commitments that you have and respect your faith in us. Together, we will remain focused, keep our vision on the ultimate goal and produce stellar results. It is what the ESP team has been doing for decades!

“

Just passed my breast registry this morning, thanks to her great lecture I went to in June.

“

I just learned that I had passed the physician certification exam for the RMSK. I had attended both the Ultrasound Physics and Musculoskeletal Ultrasound course taught respectively by Dr. Edelman and Dr. Tollefson. These courses in my opinion were instrumental in allowing me to achieve a passing score on this exam.

John P Lavery MD, RhMSUS, RMSK

The ESP conference is nothing less than amazing. She explained everything in a way it was extremely easy to understand. Also, very personable and you can tell she has a great passion for teaching! I'll definitely be back. ESP played a huge part for me adding OB/GYN to my credentials and I passed with flying colors. Thank you again!

“

Passed my RVS! I wanted to give a shout out of thanks for your help in the prep course and assistance to make this happen. I took my test August 19 and finished strongly and passed by a good margin. 650 pass, 786 score. I would have to say your X-zone questions were harder than the test. Your conference and study guide and Q-cards were fantastic!

Ed Cullen, RCS, RVS

COURSES & FACULTY

ULTRASOUND PHYSICS - SPI

Focused, efficient, productive and fun - the essence of board preparation. The course allows you to understand the concepts, gain command of the material, and earn a passing grade. This course is especially designed for ultrasound professionals with little or no formal physics background.

SIDNEY K. EDELMAN, PhD.

Dr. Sid Edelman's name is synonymous with successful physics exam preparation. His unique educational style clearly explains sonographic principles and instrumentation. Specifically designed to challenge registry exams, Dr. Edelman has refined his approach for more than three decades. The essence of his educational system presents physics in a 'no harder than it needs

to be' style using well-known, everyday examples. He meticulously creates relationships between what you already know and what you need to know.

Dr. Edelman is the author of the widely respected text *Understanding Ultrasound Physics and Ultrasound Physics Quiz Cards*. He lectures at international, national and local levels. He is a past advisor of the SDMS and visits numerous medical schools, universities, professional societies and residency and fellowship programs.

The success of Dr. Edelman's students and his reputation speak for themselves.

RICHARD A. PALMA, BS, ACS, RDCS, RCS, FSDMS, FASE

Richard "Richie" Palma is a distinguished educator in physics and cardiac ultrasound. He is passionate about ultrasound and brings his enthusiasm to each of his lectures. He currently works as director of the Hoffman Heart Institute, School of Cardiovascular Technology and the School of Cardiac Ultrasound in Hartford, CT. He is also an Associate Clinical Professor of medicine at the University of Connecticut.

He has worked in the profession since 1990 and was the first in the country to become a fellow of the American Society of Echocardiography. He is one of the first in the country to earn the credential of Advanced Cardiac Sonographer (ACS).

In 2011 he received the Distinguished Educator Award from the SDMS and in 2016 was inducted as a Fellow of the SDMS.

Richie is well published as a co-author of numerous papers and cardiac materials and he lectures extensively nationally and internationally (India and Indonesia) on the subject of adult echocardiography and Contrast.

COURSES & FACULTY

ABDOMINAL SONOGRAPHY

Comprehensive and effective registry preparation is the focus of the ESP abdominal Sonography course. Over 800 ultrasound images of normal anatomy and pathology are reviewed in this twelve-hour program. This program is perfect for those committed to achieving ARDMS certification. Steve provides an amazing attention to detail, providing you with a competitive edge in earning a RDMS credentials in Abdominal Sonography.

Methods for registry preparation concentrate on focused didactic instruction in conjunction with an all-encompassing image review. The sonographic image review is intended to give the student experience not only with normal anatomy but with a variety of pathologies. A multiple choice review is included in the course workbook that providing a variety of testing strategies designed to simulate the challenge of the registry.

STEVE BERNHARDT, RDMS, RVT, RPhS

Steve has been a Medical Sonographer since 1982. He is a graduate of the University of Oklahoma Ultrasound Program, registered in abdominal, ob/gyn, vascular and phlebology ultrasound. Steve has instructed the ESP Abdominal Sonography course since 1993. Presently practicing sonography in Oklahoma City, OK.

Steve's students report that he successfully prepares them to meet the challenge of the ARDMS abdominal examination. His focus on the specifics leaves no stone unturned in your exam preparation.

ADULT ECHOCARDIOGRAPHY

Registered echocardiographers agree that the most efficient solution to earning the RDMS or RCS credential lies in ESP's adult echo program. You will enjoy the stimulating, interactive style where David and Alicia precisely present the material in the ARDMS and CCI guidelines. Our students are well prepared for the challenging exam format and testing patterns found within the certification exams. Students preparing for CCI's noninvasive Echo Exam should register for both the morning Physics and afternoon Echo courses. These integrated lectures cover the entire CCI test outline.

ALICIA ARMOUR, MA, RDMS, FASE

Alicia Armour is a senior cardiac sonographer in the Duke University Adult Echo Lab. She has extensive educational and clinical experience in adult echo. She is the perfect person to answer all your questions.

ADULT ECHOCARDIOGRAPHY CONTINUED ON NEXT PAGE

COURSES & FACULTY

ADULT ECHOCARDIOGRAPHY (CONTINUED)

DAVID B. ADAMS, RCS, RDCS, ACS, FASE

David Adams is a renowned innovator in echocardiography practice, research and education. A cardiac Sonographer emeritus after working for 38 years at Duke University Medical Center. He has over 32 years of experience in registry reviews. He is the recipient of the first ASE Sonographer Lifetime Achievement Award and a past recipient of the ASE's Distinguish Sonographer Teaching

Award. He is dedicated to helping students master the keys to passing their registry exams. As a leader in the field, David combines humor with clinical expertise in providing a practical approach to cardiac ultrasound.

David has authored over 140 publications, including the Adult Echo Digital Loops and Echo Quiz Cards. Most importantly, David is known for his ability to teach echocardiography in a practical, informative manner - a technique that pays dividends for his students as they seek the RDCS or RCS credential.

BREAST SONOGRAPHY

This program is specifically designed for sonographers and mammographers seeking a comprehensive and efficient RDMS or ARRT registry preparation. Within this well-organized and optimized twelve-hour program, information is provided in a way for you to understand concepts and pass your certification exams.

JOYCE GRUBE, MS, RDMS

Joyce Grube holds a Bachelor of Science Degree in Radiologic Technology and a Master of Science in Allied Health Education from The Ohio State University. Joyce is a private ultrasound educational consultant and an application specialist for a major ultrasound manufacturer.

Joyce has a multidisciplinary background as a radiographer, mammographer and sonographer with twenty years of experience as a sonography educator. She holds ARDMS registrations in Breast, Abdominal and Ob/Gyn sonography. Joyce has been an item writer for the ARDMS, served on numerous committees with the SDMS, and is a past board member of the SDMS. Joyce's clinical and academic experience makes her a leader in ultrasound education in the emerging field of Breast Ultrasound. Her students, past, current and future, benefit from her devotion to and expertise in ultrasound education. Joyce is the author of the Breast Sonography Quiz Cards.

Breast Sonography presented in Birmingham, March 6 - 8 *MORNING*, Pittsburgh, March 27 - 29, Parsippany, June 12 - 14, Orlando, July 10 - 12, Las Vegas, July 31 - August 2, Chicago, September 11 - 13, Los Angeles, October 17 - 18

COURSES & FACULTY

FETAL ECHOCARDIOGRAPHY

ESP's Fetal Echocardiography program is aimed at cardiac and obstetric sonographers seeking registry preparation and/or continuing medical education. Julia Drose is a distinguished sonographer and educator with superb instructive skills and extensive clinical experience. Seminar students will enjoy great success in expanding their clinical knowledge and achieving their professional goals. Fetal Echocardiography X-ZONE coming soon!

JULIA DROSE, BA, RDMS, RDCS, RVT, FAIUM, FSDMS

Julia Drose is an Associate Professor in the Department of Radiology, University of Colorado Health Sciences Center. Previously, Julia managed the Departments of Ultrasound and Prenatal Diagnosis at the University of Colorado Hospital for 35 years before retiring in 2017. Julia served as chairperson of the ARDMS exam development task force on fetal echo. She holds registries in fetal echo, adult echo, ob/gyn, abdominal and vascular technology. She is a recipient of the American Institute of Ultrasound in Medicine (AIUM)'s Distinguished Sonographer Award. Julia is the editor of the widely respected textbook Fetal Echocardiography, which released its second edition in 2010. Julia is a renowned sonographer with a career-long commitment to excellence in ultrasound education. Julia is a strong addition to the ESP faculty.

Fetal Echocardiography presented in Los Angeles, April 4 - 5, Dallas, April 24 - 26, Las Vegas, July 31 - August 2, Chicago, September 11 - 13

MUSCULOSKELETAL SONOGRAPHY

Dr. Tollefson's twelve-hour MSK course provides outstanding registry preparation and clinical education. It offers participants with a comprehensive introduction to musculoskeletal ultrasound. The program is structured based on the ARDMS exam content outline and includes relevant material on shoulder, elbow, hand/wrist, knee, hip, ankle and foot. The teaching environment will be optimal for those seeking education as well as board preparation for the RMSK & RMSKS exams. Musculoskeletal Sonography X-ZONE coming soon!

BRIAN TOLLEFSON, MD, RMSK, RDMS, FACEP, CAQ SPORTS MEDICINE

Dr. Brian Tollefson has a rare clinical expertise in both emergency and sports medicine at the University of Mississippi Medical Center, where he has practiced for a number of years. As an attending physician and professor of emergency medicine, Dr. Tollefson lectures regularly on emergency, point of care, and musculoskeletal ultrasound.

He is the Director of the Emergency Ultrasound Fellowship Program, Director of the Sports Medicine Fellowship Program, and serves as the Vice Chair for Education in Emergency Medicine. Dr. Tollefson has an exceptional knowledge of ultrasound for both diagnostic and therapeutic purposes. His area of ultrasound expertise encompasses emergency, point of care, and musculoskeletal medicine.

Musculoskeletal Sonography presented in Pittsburgh, March 27 - 29, Dallas, April 24 - 26, Parsippany, June 12 - 14, Las Vegas, July 31 - August 2, Washington DC, October 9 - 11

COURSES & FACULTY

OBSTETRICS & GYNECOLOGY SONOGRAPHY

ESP's Ob/Gyn course is the ideal review for practicing professionals as well as students with a reasonable level of clinical experience. You receive a comprehensive course outline containing both fundamentals and recent advances. Extensive image review will sharpen your diagnostic skills. Physicians seeking an overview of Ob/Gyn sonography will find this course effective. Students report that they are exquisitely prepared for their ARDMS registry exam!

CYNDI PETERSON, MPH, RDMS, RVT

Cyndi Peterson is the Program Director of the Diagnostic Medical Sonography program at Kent State University, Salem Campus. She holds a Master of Public Health from Kent State University and a Bachelor of Science in Applied Science from Youngstown State. Cyndi has a multidisciplinary background. She holds ARDMS registries in Ob/Gyn, Abdominal, Breast, Pediatric Sonography, and

Vascular Technology as well as an ARRT registration in Radiography. Cyndi has over 30 years of sonography experience and maintains an active clinical role as a sonographer at Southwoods Imaging. She has taught the OB/GYN review course for ESP since 2009. Her students appreciate her teaching style and approachability.

PEDIATRIC ECHOCARDIOGRAPHY AND CONGENITAL CARDIAC SONOGRAPHY

The Pediatric Echo course prepares the experienced echocardiographer to earn RDCS credentials in Pediatric Echocardiography from ARDMS and the Registered Congenital Cardiac Sonography (RCCS) credential from CCI. This course also meets the needs of physicians seeking a thorough review of this area. Pediatric X-Zone Coming Soon!

CHRISTOPHER P. MARCELLA, RDCS, FASE

Christopher P. Marcella is a senior cardiac sonographer specializing in the clinical application of echocardiography for fetal, pediatric and adult patients with complex congenital heart disease at Doernbecher Children's Hospital (DCH). DCH is part of Oregon Health and Science University located in Portland Oregon. Chris currently serves as Technical and Clinical Educator. He is the Primary Preceptor for physicians

during their fellowship as well as sonographers during their externship training at DCH.

ROBERT W. MCDONALD, RDCS, RCS, RCCS, ACS, FASE

Rob is registered in pediatric, adult and fetal echocardiography as well as congenital cardiac sonography. His extensive experience and outstanding clinical material provides excellent examples of pathology. Rob is the author of the Pediatric Echo Course Book, Pediatric Quiz Cards, Pediatric Echo X-ZONE.

Pediatric Echocardiography presented in Pittsburgh, March 27 - 29, Las Vegas, July 31 - August 2, Chicago, September 11 - 13, Houston, October 2 - 4

COURSES & FACULTY

PEDIATRIC SONOGRAPHY

ESP's Pediatric Sonography review is aimed at the sonographer seeking registry preparation and/or continuing medical education. You will receive an inclusive course outline containing a review of that material identified on the ARDMS exam content outline. Reports from last year's students document that Lisa hit the target with regard to the ARDMS pediatric sonography registry exam. Highly suggested to be registered in Abdominal Sonography. Pediatric Sonography X-Zone Coming Soon!

LISA SCHULER, BS, RDMS, RVT

Lisa Schuler is a Professor and Clinical Instructor for the CAAHEP accredited Diagnostic Medical Sonography Program at Delgado Community College in New Orleans. She holds ARDMS registrations in pediatric sonography, abdomen, ob/gyn, and vascular technology. Lisa's educational style, refined over many years, is remarkable and best described as accurate, precise, relaxed and informal. Pediatric Sonography X-Zone not available.

Pediatric Sonography presented in Birmingham, March 6 - 8, Dallas, April 24 - 26, Orlando, July 10 - 12, Las Vegas, July 31 - August 2

VASCULAR TECHNOLOGY

ESP's Vascular program is recognized as the largest, most effective and efficient method for technologists and physicians preparing for RVT and RVS credentials.

WILLIAM B. SCHROEDTER, BS, RVT, RPhS, FSVU

Bill Schroedter is a distinguished educator at the international and national level. He is recognized as an authority in all aspects of vascular testing in both clinical practice and education. Bill spent 7 years on the Society of Vascular Ultrasound Board of Directors and as SVU Vice President. He was honored as a Fellow of SVU in 1998.

JEAN M. WHITE-MELENDEZ, RVT, RPhS, FSVU

Jean is the program director at ESP Ultrasound. She is responsible for managing all aspects of its educational courses. Jean is nationally recognized as a premier expert in venous disease and vascular testing. She has served as an application reviewer and site visitor for the Intersocietal Accreditation Commission (IAC). Jean has served on the Board of Directors of multiple vascular societies and foundations. She was honored as a Fellow of SVU in 2014.

POCUS - POINT OF CARE ULTRASOUND SEMINAR

The Point of Care Ultrasound Course is a program born out of necessity for high quality education on point of care ultrasound. This program is unique to ESP in that it provides a hands-on environment to learn specific techniques regarding Point of Care Ultrasound. Proper ultrasound training is required to successfully practice and pass Point of Care ultrasound certificates and certifications. This course is to prepare the healthcare professional to be successful in certification and implementation into practice. The goal of this hands-on program is to provide accurate diagnosis in a timely manner, stay up to date on the latest technology, establish duty to exceptional patient care while attaining continuing education credits.

POCUS CREDIT INFORMATION -Dr. Tollefson's twelve-hour course provides outstanding registry preparation and clinical education. It offers participants with a comprehensive introduction to point of care ultrasound. The program is structured based on the Point of Care Ultrasound exam content outline and includes relevant material on trauma, abdominal aortic aneurysm (AAA), lower extremity deep vein thrombosis (DVT), lung, cardiac, musculoskeletal (MSK), gastrointestinal, obstetrics, hepatobiliary and spleen, renal and genitourinary. The teaching environment will be optimal for those seeking quality education as well as board preparation for the Point of Care Fundamentals Certification and Individual Clinical Certificate exams.

**BRIAN TOLLEFSON, MD, RMSK, RDMS,
FACEP, CAQ SPORTS MEDICINE**

Dr. Tollefson holds RMSK and RDMS credentials and is exceptionally qualified to teach courses on point of care and musculoskeletal ultrasound. His teaching style is incredibly concise and highly motivating for those seeking advanced education and certification in Point of Care and Musculoskeletal Ultrasound.

Location: Atlanta, GA **Date:** November 7 - 8
Hours: Sat 8 AM - 5 PM & Sun 7:30 AM - 1 PM

PVI - PHYSICIAN'S IN VASCULAR INTERPRETATION

Our course will provide focused and effective preparation for those that seek to pass the APCA Registered Physician Vascular Interpretation (RPVI). Approved for 15-hour AMA PRA CAT 1 credits this comprehensive course will advance the understanding of ultrasound physics, and non-invasive vascular interpretation to including arterial, venous, abdominal, and cerebrovascular studies. We use a variety of educational tools, including a comprehensive workbook, extensive audiovisuals, the most extensive and up to date case study collection, and personal interaction between faculty and student. Included in the course is post-class online access to our self-assessment tool called the X-ZONE.

DR. EDWARD G. MACKAY, MD, RVT, RPVI

Edward Mackay is a board-certified vascular surgeon and internationally recognized expert in the treatment of venous disease. He received his medical degree from the University of Florida, residency training at George Baptist Medical Center and a fellowship in vascular surgery at the University of Tennessee Medical Center. His breadth of knowledge in vascular testing coupled with his extraordinary approachable lecturing style makes him the perfect addition to the physician vascular interpretation review course.

WILLIAM B. SCHROEDTER, BS, RVT, RPHS, FSVU

Bill Schroedter is a distinguished educator at the international and national levels. He is recognized as an authority in all aspects of vascular testing in both clinical practice and education. Bill spent many years on the Society of Vascular Ultrasound Board of Directors and as SVU Vice President. He was honored as a Fellow of SVU in 1998.

JEAN M. WHITE-MELENDEZ, RVT, RPHS, FSVU

Jean is nationally recognized as a premier expert in venous disease, vascular testing and is a frequent lecturer throughout the USA. She has served as an application reviewer and site visitor for the Inter-societal Commission for the Accreditation of Vascular Laboratories (ICAVL). Jean has served on the Board of Directors of multiple vascular societies and foundations. She was honored as a Fellow of the SVU in 2014.

Each course has been awarded a maximum of 12 SDMS CME credits on an hour-for-hour basis. These hours are accepted by ARDMS, CCI and the ARRT as Category A credit. Those attending both morning and afternoon courses earn up to 24 hours of credit.

All ESP courses are also approved by the State of Florida, Office of Radiation Control for CME credit.

FOR PHYSICIANS - AMA PRA CATEGORY 1 CREDIT(S)TM

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Penn State College of Medicine and ESP Ultrasound, Penn State College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

PennState
College of Medicine

Penn State College of Medicine designates these live activities for *AMA PRA Category 1 Credit(s)TM*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

- Physics and Specialty Weekend - approved for a maximum of 24 *AMA PRA Category 1 Credit(s)TM*
- Physician's in Vascular Interpretation Weekend - approved for a maximum of 15 *AMA PRA Category 1 Credit(s)TM*
- Point of Care Ultrasound Weekend - approved for a maximum of 12 *AMA PRA Category 1 Credit(s)TM*

It is our policy to ensure balance, independence, objectivity, and scientific rigor in all of our educational programs. Faculty and course directors have disclosed relevant financial relationships with commercial companies, and Penn State has a process in place to resolve any conflict of interest. Complete faculty disclosure will be provided to program participants at the beginning of the activity.

The information presented at this CME program represents the views and opinions of the individual presenters, and doesn't constitute the opinion or endorsement of, or promotion by, Penn State College of Medicine. Each participant must use his/her personal and professional judgment when considering further application of this information.

All participants may earn *AMA PRA Category 1 Credit(s)TM*.

GENERAL INFORMATION

HOW TO REGISTER

Guarantee your enrollment instantly by registering on our website www.esp-inc.com.

You may also e-mail, fax or mail your completed registration form and payment to:
PO Box 7439
Woodlands, TX 77387-7439
info@esp-inc.com

WHEN TO REGISTER

Maximum attendance limits have been established. Register early, enrollments are processed on a first-come, first-served basis. Some 2019 seminars sold out, and unfortunately, we couldn't accept latecomers!

On-site and late registrations subject to a \$50 late fee.

ATTENDING MORE THAN ONE SEMINAR IN 2020?

When you attend seminars in two different cities in 2020, you may deduct \$50 from the tuition of the second seminar. The tuition of each seminar must exceed \$200. You must register for the 2nd seminar via email, mail or fax. To apply discount online contact office prior to registering.

CANCELLATION POLICY

Refunds are available, less a \$50 administrative fee, for written cancellation received at our office three weeks prior to the original seminar selected. Refunds less than three weeks before the start of the original seminar selected are subject to a \$100 cancellation fee.

No refunds are available for non-attendance or for cancellation received in our office less than ten days before the start of the original seminar selected.

Attendees may transfer tuitions to another program within the calendar year without a cancellation fee.

COURSE MATERIALS

A bound volume of extensive seminar notes will be distributed at the seminar. These books are protected by copyright. No part may be reproduced in any manner or by any means without permission in writing from ESP Ultrasound. Any unauthorized reproduction, copying or public presentation of this material will constitute an infringement of copyright.

AUDIO AND VIDEO RECORDING

You may audio record our seminars. We expect that these recordings are limited to your personal use and are erased after passing your exam. You must refrain from using electric outlets that are located in the meeting rooms.

Video recording and/or photography during our seminars is forbidden. Anyone found in violation of this policy will be removed from class for the remainder of the seminar and the recording device will be confiscated.

FAQS

HOW WILL I GET MY ENROLLMENT CONFIRMATION?

Upon receipt of your registration, confirmation, invoice, and detailed information regarding our program will be sent via e-mail.

WHAT'S INCLUDED WITH THE TUITION?

Registration includes comprehensive course materials, morning light continental breakfasts and afternoon beverage breaks.

WHEN WILL I GET MY COURSE MATERIAL FOR THE SEMINAR?

Course outlines will be distributed at the seminar during registration.

WHEN WILL I HAVE ACCESS TO THE X-ZONE?

This is our #1 priority and access will be granted within one week after the completion of the seminar!

“

I FINALLY passed my registry!! I had never attended a seminar before and I'm soo glad I did! Steve was awesome and I would definitely recommend everyone to take his seminar. He is very smart and extremely knowledgeable in this field!! Thanks Steve for all you do!!

Anna Sanchez, RDMS

”

I am very happy to report that I passed my echo boards on my first try yesterday! I feel your seminar and book were a huge help along with x zone and your usb flash drive. So thank you again for dedicating your life to helping students understand ultrasound better.

Amanda Ricci, RVT, RDCS

EDUCATIONAL PRODUCTS

UNDERSTANDING ULTRASOUND PHYSICS, 4TH EDITION

The most respected and critically acclaimed ultrasound physics textbook!

The thoroughly revised fourth edition of Dr. Edelman's text reflects recent changes in registry exam content and technology in the field. Highlights include 424 full color pages containing over 350 illustrations & images and an additional 215 pages of review questions with answers.

Includes FREE ACCESS to one full length, computer-based practice exam on ESP's innovative website, the X-Zone.

Product Code: UUP4, \$119

ULTRASOUND PHYSICS QUIZ CARDS & AUDIO

Each quiz card contains an important question and a detailed answer that stresses conceptual learning. Exam-specific information is found within the Quiz Cards.

Product Code: PQZ, \$64

ABDOMINAL SONOGRAPHY QUIZ CARDS

The Abdominal Sonography Quiz Cards provide you with a superb self-assessment opportunity. Prior to the ARDMS exam, evaluate your command of the material required to meet the challenge. The Quiz Cards will focus your efforts and serve as a perfect supplement to achieve RDMS certification.

Product Code: ABD, \$59

ADULT ECHO QUIZ CARDS

The Adult Echo Quiz Cards survey the material essential for success on the Echo exam. The Quiz Cards provide an organized method to assess your strengths and to identify areas requiring additional study for RDCS and RCS credentials.

Product Code: AE, \$59

ADULT ECHO VIDEO - "TEST & LEARN" CASE STUDIES

Normal Anatomy & Common Pathologies

ESP Ultrasound's newest echo creation. Video loops are presented in two forms, Test Yourself and Learn. Test Yourself presents each video loop as seen in the clinical setting, without annotation or comment. Learn presents the same video with audio and visual interpretation. It is the perfect companion to our Adult Echo registry reviews. Exchanges only, no refunds.

Product Code: AE - TL1, \$159

Special for 2019 & 2020 Adult Echo seminar attendees: \$89

BREAST SONOGRAPHY QUIZ CARDS

These Breast Sonography Cards are the perfect self-assessment tool for those seeking credentials. Review the extensive range of required information and identify your areas of strength and weakness. The cards stress conceptual knowledge, providing an organized and systematic assessment of your proficiency.

Product code: BRS, \$59

EDUCATIONAL PRODUCTS

FETAL ECHOCARDIOGRAPHY QUIZ CARDS

The Fetal Echocardiography Quiz Cards provide a comprehensive review of material required to pass the credentialing examination. This tool allows you to assess your proficiency in fetal cardiac anatomy, pathology and technical parameters associated with performance of a fetal echocardiogram.

Product Code: FE, \$59

MUSCULOSKELETAL SONOGRAPHY QUIZ CARDS

Coming soon!

OBSTETRICS & GYNECOLOGY QUIZ CARDS

These Ob/Gyn Quiz Cards review the material required to score a high grade on this RDMS exam. In a question and answer format, the cards survey the essential material and allow you to evaluate your command of the clinical information found on the test.

Product Code: OBG, \$59

PEDIATRIC ECHO & CONGENITAL CARDIAC SONOGRAPHY QUIZ CARDS

The Pediatric Echo and Congenital Cardiac Sonography Quiz Cards provides a comprehensive review of congenital and acquired pediatric heart disease terminology, anatomy and self-assessment to help supplement learning in achieving the RDCS and RCCS certification.

Product Code: PE, \$59

PEDIATRIC SONOGRAPHY QUIZ CARDS

The Pediatric Sonography Quiz Cards provide a comprehensive review of the material required to pass the credentialing examination. This tool allows you to assess your proficiency in neonatal and pediatric head and neck, chest, abdominal, pelvic, small parts and MSK anatomy and pathology, pediatric patient care and technical parameters associated with the performance of Pediatric Sonography.

Product Code: PS, \$59

VASCULAR TECHNOLOGY QUIZ CARDS

The Vascular Technology Quiz Cards provide a comprehensive review of the material required to earn RVT or RVS credentials. Each card reviews an important concept. This essential tool allows you to assess your proficiency and readiness to challenge the vascular specialty exam.

Product Code: VT, \$59

THE X-ZONE - ONLINE PRACTICE QUESTIONS

Assess your knowledge with our online test questions. Visit our website for duration and pricing information. Subjects available: abdominal, adult echo, breast, fetal echo, msk, ob/gyn, pediatric echo, pediatric sono., phlebology, physics, and vascular.

Prices and availability subject to change.

ESP ULTRASOUND'S X-ZONE

ESP Ultrasound's X-Zone is the #1 destination site for high quality and affordable practice questions and answers for the Ultrasound registry exams. Individuals with an internet connection can take advantage of our X-Zone. You may access the system from any computer, anywhere, and at any time.

Assess your technical proficiency and skill levels. In addition, obtain answers to your pressing certification-related questions.

Seminar students in Abdominal, Adult Echo, Breast, Fetal Echo, MSKk, Ob/Gyn, Pediatric Echo, Pediatric Sono., Physics, PVI and Vascular. will have free six week unlimited access to the X-Zone, in the class that they attend. Others may purchase access on our website at www.esp-inc.com.

Try before you buy! Log on to preview free practice questions.

Visit us at www.esp-inc.com and click on the X-Zone tab.

CHALLENGING CCI'S NON-INVASIVE ECHO OR NON-INVASIVE VASCULAR EXAM?

CCI combines both clinical material and physics material in each of these exams. Therefore, ESP's Physics & Specialty Weekends are ideal preparation for sonographers seeking CCI's RCS or RVS credentials. Enroll in both the morning Physics and an afternoon Specialty class for optimal non-invasive echo or vascular exam coverage.

“

I passed the Abdomen/SPI boards! I want to take this time to thank you for the review classes, without them I could not have passed. Thanks so much!

Nancy Zietlow, RDCS, RVT, RDMS
